

**Job Description: Senior PHP Developer (Yii2 Framework)**

**Location:** Hyderabad, India

**Experience:** 7+ Years

**Employment Type:** Full-time

**Role Overview:**

We are looking for a **highly skilled Senior PHP Developer** with extensive experience in the **Yii2 framework** to lead and mentor a team of junior developers. The ideal candidate should have **deep expertise in PHP, Yii2, database optimization, and high-performance application development**. This role requires a strong leader who can **manage projects, enforce best coding practices, and ensure successful project delivery**.

**Key Responsibilities:**

- Lead and mentor a team of junior developers, conducting regular code reviews and providing technical guidance.
- Design, develop, and optimize **high-performance PHP applications** using the Yii2 framework.
- Architect scalable solutions and ensure the **best coding standards and security practices**.
- Optimize database queries and structure for **MySQL or PostgreSQL** databases.
- Develop and maintain RESTful APIs for seamless integrations.
- Collaborate with front-end developers to ensure a smooth user experience.
- Manage **CI/CD pipelines**, version control, and deployment strategies.
- Troubleshoot performance bottlenecks, memory issues, and optimize application efficiency.
- Stay updated with the latest PHP and Yii2 developments to continuously improve application performance.
- Work closely with business stakeholders to understand project requirements and deliver high-quality solutions.

**Must-Have Skills:**

- **Expertise in PHP and Yii2 framework** with a proven track record of developing complex applications.
- Strong experience in **leading and mentoring junior developers**.
- Proficiency in **MySQL or PostgreSQL**, including query optimization and indexing.
- Hands-on experience with **RESTful API development and third-party integrations**.
- Strong understanding of **object-oriented programming (OOP) and MVC architecture**.
- Experience with **version control systems (Git, GitHub, GitLab)**.
- Knowledge of **automated testing, debugging, and performance optimization**.
- Experience with **Docker, Kubernetes, and cloud-based environments**.
- Familiarity with **CI/CD pipelines for automated deployment**.

**Preferred Skills:**

- Experience with **frontend technologies** (Vue.js, React, or Angular).
- Knowledge of caching mechanisms like **Redis or Memcached**.
- Exposure to **Agile methodologies and project management tools** (JIRA, Trello).
- Understanding of **security best practices in web development**.

### **Educational Qualification:**

- Bachelor's or Master's degree in **Computer Science, Information Technology, or a related field**.

### **Salary & Benefits:**

- Competitive salary based on experience and industry standards.
- Opportunities for career growth and leadership roles.
- Health benefits and performance-based incentives.
- Flexible work environment with cutting-edge technology exposure.

If you are a **strong Yii2 PHP developer** with leadership experience and a passion for building high-quality applications, **apply now!**
